«06 » October 2020 № 01/291

Dear Sir/Madam,

We inform you about the requirements for materials submitted to the international scientific conference “**Global studies of tobacco, tobacco products, and innovative nicotine-containing products: status and perspectives**” that will take place online on November 17, 2020.

Materials will be published in hard copy of the digest, with DOI assigned to each article. Also digest will be available online at the Institute’s website and in the Russian Sciences Citation Index bibliographic database, ISBN-indexed.

The deadline for submitting materials on e-mail vniitti.nir@mail.ru (copy on gnu20072007@yandex.ru) is **October 20, 2020**

Requirements for materials submitted to conference:

Official languages are Russian and English.

The file with text of article must be titled by surname of first author (for example: Petrov_P.N._article.doc). The article length must be from 10 to 15 A4 pages (including graphs, figures, references). Page orientation should be portrait only. All margins – 2 cm, paragraph indent – 1.25 cm. The article font is 14-point Times New Roman, single spacing, paragraph spacing 0 point. Page filling – total without moving to another page.

Structure of the article:

- title (without hyphenation, all letters are **CAPITAL, bold type**, center alignment);
- after 1 interval, authors, in order: First author's surname, first author's Initials, academic degree, academic title; second author's Surname, second author's Initials, academic degree, academic title;... (no hyphenation, italic, center alignment);
- if the authors work in different institutions, then after the name of each author, specify a digital index (*^{overline}index*, italic);

- after 1 interval, the full name of the institution where the authors work (without hyphenation, center alignment), country, city;
- after 1 interval **Abstract** (started with Capital letter, bold, paragraphed, aligned by width), size – 12 point;
- the Abstract of the article should reflect the main meaning of the article in a brief form. Abstract size – no more than 500 printed symbols;
- after 1 interval **Keywords** (started with Capital letter, bold, paragraphed, aligned by width), size – 12 point. There must be 5-7 words or phrases, separated from each other by comma;
- after 1 interval, the text of the article (started with Capital letter, paragraphed, aligned by width);
- after the article text in 1 interval, **References** (started with Capital letter, bold, paragraphed, aligned by width);
- after 1 interval, the list of used references in the form of a numbered list (indent 1.25, aligned by width). List of references must be arranged in order of appearance in the text of the article and numbered by Arabic numerals. References citation in the text must correspond to reference from the list of references and must be placed in square brackets.

Figures design:

- all figures in the article should be numbered end-to-end, starting from 1;
- if there is only one drawing, the number is not put, and only the word "drawing" is mentioned in the link to the drawing.»;
- the caption should be made in the font of the main text in the format "Figure 1. The name of the picture" (center alignment).

Table design:

- all tables in the article must be numbered end-to-end, starting from 1;
- if there is only one table, the table number is not put, and only the word "table" is mentioned in the link to the table.»;
- after 1 interval from the text print the word "Table" with the corresponding number, aligned to the right;
- below the word "Table" print its title (started with Capital letter, center alignment);
- when moving the table to the next page, the header should indicate the column numbering, but do not break the table;
- the text of tables should be made in a readable Times New Roman font, no larger than 12 point, single line spacing.

Example of article:

PERSPECTIVES OF SCIENTIFIC RESEARCH OF FSBSI ARSRITTP

Larkina N. I., cand. of biol. sciences, Ivanov E.V., cand of tech. sciences

FSBSI All-Russian Scientific Research Institute of Tobacco, Makhorka and Tobacco Products, Russian Federation, Krasnodar

Abstract. Actual and perspective scientific research.....

Keywords. Tobacco, cured tobacco, tobacco products.....

The Institute conducts fundamental and priority applied researches.....

Table 1

The composition of tobacco seeds

Component	Content, %
Water	6 – 10

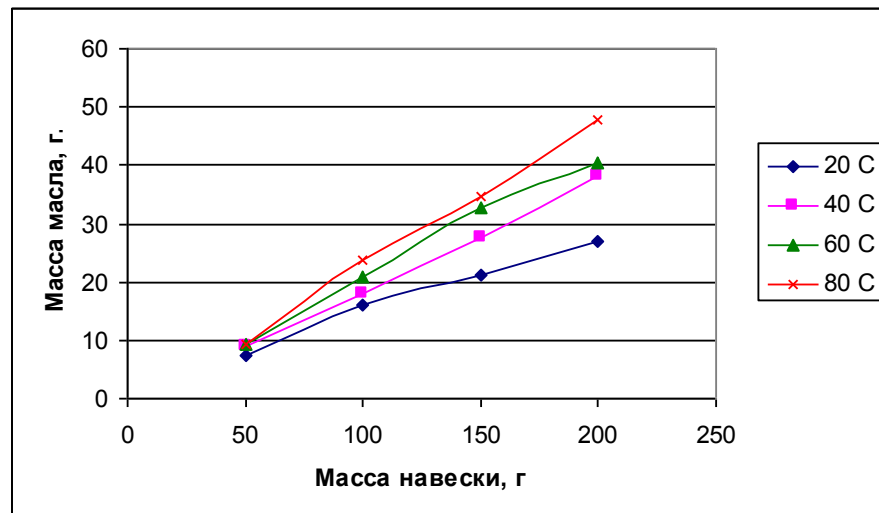

Figure 1. Influence of the seed load on the mass of the collected oil
